

Good Afternoon Residents,

As part of routine maintenance, the Town of Hepburn will clean and inspect one of its reservoirs to ensure a safe, reliable water supply. This work will take place **from July 7 to 11** and is **not expected to cause service disruptions**.

During this time, the reservoir will be **isolated and drained**, temporarily reducing overall water storage capacity. To help maintain supply, we ask residents to **conserve water** by limiting non-essential use such as **watering lawns or filling pools**.

**Bulk water customers** are encouraged to **pre-fill storage tanks** and reduce usage where possible.

No boil water advisories or interruptions are anticipated. Updates will be shared via the Town's **website**, **social media**, and other official channels.

Thank you for your cooperation and support.

Town of Hepburn
